# DON'T BREAK THE BANK

It's no secret that figuring out how to pay for college can be stressful. **But don't let that stop you.** From financial aid, to scholarships, to loans and grants, there are numerous ways to help make sure everything gets paid for. Chances are there's money out there right now with your name on it. You just have to apply! Don't get overwhelmed. **Let us help.**

**TUITION** is how much you pay for each credit you take. Every course is worth a certain number of credits based on how often it meets throughout the week. Your degree is earned when you've passed courses that add up to a certain number of credits. OTC charges tuition based on which tier a course falls under — generally, courses that cost more to teach are priced higher. Depending on where you live, you'll either pay the in-district or out-of-district price. **FEES** are also added to every credit hour you take. Common fees include a technology fee and a security fee, while some specialized courses have fees specific to them.

	Tier 1	Tier 2	Tier 3		Fee	
<b>TUITION</b>	In-District tuition	\$108	\$110	\$117	Student Fee	\$15
	Out-of-District tuition	\$160	\$162	\$169	Technology Fee	\$7
	Out-of-State tuition	\$200	\$207	\$216	Security Fee	\$3
